Voting early is another great option. You may vote early at the Registrar of Voters office Monday through Friday beginning October 9, and at participating Malls in Riverside County on October 26 through October 28.

There is still time to volunteer to be a poll worker. We need Polling Officers to work at the polls on Election Day and we are eager to train you to assist voters with our proudest legacy – the right to vote.

You can learn more about voting by mail, voting early or training to be a poll worker by reviewing this pamphlet or by visiting www.voteinfo.net or by calling (800) 773-VOTE (8683).

Elections in California

**NEW LAW
Took Effect
January 1, 2011**

The Top Two Candidates Open Primary Act, which took effect January 1, 2011, requires that all candidates for a voter-nominated office be listed on the same ballot. Previously known as partisan offices, voter-nominated offices are state legislative offices, U.S. congressional offices, and state constitutional offices.

Only the two candidates receiving the most votes – regardless of party preference – move on to the general election regardless of vote totals.

Write-in candidates for voter-nominated offices can only run in the primary election. However, a write-in candidate can only move on to the general election if the candidate is one of the top two vote-getters in the primary election. Additionally, there is no independent nomination process for a general election.

California's new open primary system does not apply to candidates running for U.S. President, county central committee, or local offices.

California law requires that the following information be printed in this pamphlet.

Party-Nominated/Partisan Offices

Political parties may formally nominate candidates for party-nominated/partisan offices at the primary election. A nominated candidate will represent that party as its official candidate for the specific office at the general election and the ballot will reflect an official designation. The top vote-getter for each party at the primary election moves on to the general election. Parties also elect officers of county central committees at the primary election.

A voter can only vote in the primary election of the political party he or she has disclosed a preference for upon registering to vote. However, a political party may allow a person who has declined to disclose a party preference to vote in that party's primary election.

Voter-Nominated Offices

Political parties are not entitled to formally nominate candidates for voter-nominated offices at the primary election. A candidate nominated for a voter-nominated office at the primary election is the nominee of the people and not the official nominee of any party at the general election. A candidate for nomination to a voter-nominated office shall have his or her party preference, or lack of party preference, stated on the ballot, but the party preference designation is selected solely by the candidate and is shown for the information of the voters only. It does not mean the candidate is nominated or endorsed by the party designated, or that there is an affiliation between the party and candidate, and no candidate nominated by the voters shall be deemed to be the officially nominated candidate of any political party. In this sample ballot booklet, parties may list the candidates for voter-nominated offices who have received the party's official endorsement.

Any voter may vote for any candidate for a voter-nominated office, if they meet the other qualifications required to vote for that office. The top two vote-getters at the primary election move on to the general election for the voter-nominated office even if both candidates have specified the same party preference designation. No party is entitled to have a candidate with its party preference designation move on to the general election, unless the candidate is one of the two highest vote-getters at the primary election.

Nonpartisan State Offices

Political parties are not entitled to nominate candidates for nonpartisan offices at the primary election, and a candidate at the primary election is not the official nominee of any party for the specific office at the general election. A candidate for nomination to a nonpartisan office may NOT designate his or her party preference, or lack of party preference, on the ballot. The top two vote-getters at the primary election move on to the general election for the nonpartisan office.

Redistricting

New electoral district boundaries are drawn every 10 years in order to equalize district populations. Boundaries for the congressional, state legislative, and county supervisorial districts are now different. Boundary changes also apply to any city, school district, or special district that votes by trustee areas or divisions. To see the new district maps, visit the Registrar of Voters website at www.voteinfo.net.

**CANDIDATE STATEMENT FOR
MEMBER OF THE STATE ASSEMBLY,
67TH ASSEMBLY DISTRICT**

MELISSA MELENDEZ, Republican
OCCUPATION: Local Businesswoman / Councilmember
EDUCATION AND QUALIFICATIONS:

I am running for Assembly to lower taxes, cut regulations, and reduce government spending.

I am a small business owner and Reagan conservative endorsed by the California Republican Assembly, Republican Women's Federated of Temecula Valley, CA Small Business Association and Family Action PAC to represent the 67th Assembly district.

As Mayor, I cut taxes for businesses, opposed spending increases, created private sector jobs, and balanced our City budget while cutting government waste. I authored a groundbreaking measure establishing an annual business tax holiday that saved our local small businesses over \$100,000 in taxes and fees.

My husband and I are veterans of the United States Navy where I achieved fluency in the Russian language and served as an intelligence translator during the Cold War and Operations Desert Shield and Desert Storm.

I'm proud to have support from respected conservative leaders in our community that believe I am the most qualified candidate. I would be honored to have your vote.

"Melissa Melendez will fight the job-killing regulations and taxes that are driving businesses away from California." -- Senator Joel Anderson

"Melissa Melendez is the only candidate in the field who has Reagan credentials for the State Assembly." -- Reagan Advisor Stu Spencer

"Melissa has demonstrated her strong support for small business on the Lake Elsinore City Council." -- Betty Jo Toccoli, President, CA Small Business Association

"Melissa Melendez is a U.S. Navy Veteran who is committed to protecting America's borders." Rear Admiral Greg Slovanic, US Navy (Ret.)

**CANDIDATE STATEMENT FOR
MEMBER OF THE STATE ASSEMBLY,
67TH ASSEMBLY DISTRICT**

PHIL PAULE, Republican **AGE: 49**
OCCUPATION: Elected Water Board Member & Small Business Owner
EDUCATION AND QUALIFICATIONS:

I am the only candidate in the 67th Assembly district endorsed by the Republican Party and the Howard Jarvis Taxpayers Association.

As Vice-President of the largest Water District in Riverside County, a husband and father of two sons going to school in our district, I am running for the Assembly because the State Legislature is broken, corrupt and out of touch with the daily problems we face.

The politicians in Sacramento waste billions of dollars on a pie-in-the-sky bullet train, while demanding higher taxes from small business, working families and retirees. They let our schools and police suffer, while releasing criminals early and wasting millions of dollars on benefits to illegal aliens. Their priorities are all wrong.

As your Assembly representative, I will work to:

PROTECT seniors from tax and fee increases and benefit cuts.

REDUCE small business fees and regulations that are killing our economy.

STOP the early release of state prisoners.

FOCUS government on what's really important: LAW ENFORCEMENT, SCHOOLS, WATER, ROADS.

My wife manages our small family business. I see how high taxes and regulations hamper her ability to grow the business and hire employees. We won't fix our economy until we stop punishing hard working small business owners.

Let's take control of our government and reclaim our freedom and prosperity. I'd be honored to receive your vote and serve as your representative in the State Assembly.

Please visit www.PauleforAssembly.com to learn more and find out how you can help. Thank you.

**CANDIDATE STATEMENT FOR
COUNTY SUPERVISOR,
1ST DISTRICT**

KEVIN JEFFRIES

AGE: 51

OCCUPATION: Small Business Owner

EDUCATION AND QUALIFICATIONS:

I'm a small business owner and family man. I'm running to remind county government that they work for us, we don't work for them.

RESTORE SAFE NEIGHBORHOODS. Our county spent \$730,000 on lobbyists while cutting Deputy Sheriffs. Then the county granted Early Release and put 3500 convicted criminals back into our communities! Our tax dollars should pay for Police and Firefighters - not bureaucrats and lobbyists.

PASS COUNTY FINANCIAL REFORMS. County Supervisors enjoy six-figure salaries and lifetime pensions. Reform must start at the top! Recently approved salary INCREASES will cost our county \$730 million over 4 years! Let's end the lavish giveaways, reduce bloated salaries and benefits, and eliminate pensions for County Supervisors.

FIGHT NEW TAXES. I've led statewide efforts to protect taxpayers, and I personally opposed raising your vehicle tax, income tax and sales tax, saving families and small businesses nearly \$1000 a year.

BRING BACK JOBS. Even with high unemployment our county continues to make it difficult for businesses to grow and create new jobs. We must eliminate layers of bureaucracies and regulations and start welcoming new jobs!

ENDORSEMENTS.

**CANDIDATE STATEMENT FOR
COUNTY SUPERVISOR,
1ST DISTRICT**

BOB BUSTER

OCCUPATION: Small Businessman / County Supervisor / U.S.

Army Veteran

EDUCATION AND QUALIFICATIONS:

Sacramento politicians cover-up the state budget deficit by raising taxes and shifting the burden to local residents.

In contrast, I've held the line on taxes, reformed public employee pensions (saving more than \$860 million), and conservatively managed County finances.

As a Riverside County native and local businessman, my priorities are to bring high-paying local jobs, keep our neighborhoods safe, and reduce traffic congestion.

The Meridian Business Park, has created 2,600 new jobs, with 6,000 more on the way. The UC Riverside Medical School will attract thousands more high-tech jobs. They are examples of my approach to rebuilding our local economy to ensure future prosperity.

I've kept County finances strong despite the recession. That has enabled me to put more Sheriff's Deputies on the street, open five neighborhood fire stations, and reduce 9-1-1 response times. That's why District Attorney Paul Zellerbach and retired Sheriff Cois Byrd support my candidacy.

I required developers – not taxpayers – to upgrade roads to reduce traffic congestion, and secured federal funds to expand the 91 freeway, creating an additional 16,200 jobs in our region.

If you support my Independent approach, I'd appreciate your vote.

WILLIAM PARK

OCCUPATION: Small Businessman

EDUCATION AND QUALIFICATIONS:

Lake Elsinore has been a huge part of my life, I grew up in this town. My parents, brother and I have run a family business for 18 years, successfully. Ever since I was a child, I have watched the city around me grow but at a snail's pace. I think it's time we have city leaders that will make things happen. Integrity, innovation, vision and initiative, these are some of the traits a leader should have. I have served my country as a U.S. Marine and now I want to serve my city. A city that needs real leaders to bring forth a better future for our community, our families, and our youth. I have observed this city, I have listened to your thoughts, and now it is time to let your voice be heard. Being a small business owner, I cannot and will not be swayed by personal interests and corporate dollars. Also, my past military experience has given me the decision making and leadership qualities needed to set Lake Elsinore on a path to success.

Vote for a leader that will listen to you.

MEASURE "T" - PERRIS UNION HIGH SCHOOL DISTRICT

ATTACHMENT "1"

SCHOOL FACILITIES PROJECTS

Perris Union High School District 2012 Bond Project List

The Board of Trustees of the Perris Union High School District has evaluated the urgent and critical facility needs of each of the District's schools, and identified several projects for prioritization so that they do not become more pressing. These projects reflect the District's goals and plans to provide safe, clean, efficient, secure and modern school facilities, ensure that our students have the best learning environments possible, and meet high-priority goals to ensure student safety and 21st Century readiness:

- Provide quality vocational/technical education so students have the skills they need to obtain employment within an increasingly competitive economy,
- Support student safety,
- Ensure each student has the technological tools and resources they need to learn and be prepared for college and the workplace,
- Prevent classroom overcrowding,
- Increase accessibility for all students with disabilities,
- Attract and retain excellent teachers, and
- Maximize State and other outside matching funding opportunities.

• Promote Continued Increases in Student Achievement •

Academic achievement by students in schools throughout our District is rapidly on the rise! Recently released test scores from the California Department of Education show outstanding improvements as a result of the collective efforts by our students, staff members and our parents/community members. The College Board has named our District to the AP Achievement List for significant gains in advance placement and student performance.

• 21st Century Career Skills •

All of our facilities planning efforts are directed at supporting and improving our instructional programs and ensuring our students obtain a strong education in math, science and technology, so they can compete for a good job in a 21st Century economy. In addition, we know students who do not go to college need a vocational education that provides the job training, technical knowledge and specialized skills they need to succeed.

• Attracting and Retaining Excellent Teachers •

A top priority of the District is to attract and retain qualified teachers. Safe, clean, 21st-Century schools, with updated technology and adequate space to prevent student and classroom overcrowding will help attract and retain teachers in our local high schools.

• Equitable Spending •

It is the intention of the Board to ensure that bond proceeds are utilized equitably throughout the District commensurate with the current relative division of assessed valuations in various regions of the District. Implementation of this approach will help to facilitate responsible preparation for eventual District unification. In order to promote the consistent utilization of this expenditure approach, it is suggested that the Citizen's Oversight Committee monitor future expenditures with oversight toward practices that help to promote the most orderly transition as future District unifications are likely to occur.

• School Overcrowding •

Overcrowded schools experience higher rates of bullying, student fights, vandalism and youth violence. Crowding makes supervision more challenging and reduces opportunities for after school activities that help keep kids on the right track. Our community has experienced severe overcrowding twice before: Perris High School, originally built for 1,200 students, was serving 2,500 before Paloma Valley High School opened in 1995, and Paloma Valley High School, built for 2,200 students, was serving 3,400 before Heritage High School opened in 2007. Educators and parents at each site saw immediate improvement in student performance and safety when the crowding was eased in both cases.

Currently our local schools are currently at or over the functional capacity for which they were built.

- Pinacate Middle School: built for 700 students currently holds 1,200 students, expected to grow to more than 1,600 within 10 years
- Our local high schools were built for 2,000 to 2,700 students, but some face enrollment as high as 5,000 if nothing is done.
- A new high school is needed in Menifee to avoid extreme overcrowding when current Menifee elementary students reach high school. (A new high school in Menifee also will support eventual unification.)
- If our high schools become overcrowded again, we could lose much of the hard-won academic progress and improved test scores our schools have gained in the last few years

• Bond Measure Projects •

To meet the District's priorities of providing safe, clean, efficient, secure and modern school facilities for students, staff and other users of District facilities, to attract and retain quality teachers, and to improve the teaching and learning environments at District schools, the following improvement projects are proposed to be financed at the following sites, as needed:

- Perris High School
- Paloma Valley High School
- Heritage High School
- New High School #4, Southeast Menifee
- New High School #5, Lakeview-Nuevo
- Perris Lake High School
- The Academy
- California Military Institute (CMI)
- New Middle School #2 (in Perris)
- Pinacate Middle School (completion of phase III)

Projects to Upgrade Vocational/Technical Education and Train Students With Skills to Compete for 21st-Century Jobs

Goal and Purpose: To provide adequate facilities for all students by updating and improving aging classrooms with classroom technology and vocational/technical education programs and tools, so local schools can prepare students to meet the demands of today's high-tech economy and a competitive job market. Having quality schools with modern educational tools helps attract and retain excellent teachers and promotes continued increases in academic achievement by our students.

- Provide quality vocational education that provides job training, technical knowledge and specialized skills needed to be competitive in today's job market
- Update science and computer labs, and provide students with more access to technology to learn the vital skills needed for today's high-tech economy
- Improve classrooms to meet current academic, health and safety standards
- Upgrade electrical systems and wiring to enhance technology programs, improve internet access and more fully utilize technological resources at all District campuses
- Add solar facilities to reduce utility costs and save money for classroom instruction, and to provide opportunities for 21st-Century career education, job training and "hands-on" science education

Teaching /Learning Environment Improvements to Ensure Safe, Clean and Secure Schools

Goal and Purpose: Since quality, safe and up-to-date schools help protect and maintain strong property values, help attract and retain excellent teachers, and support student learning, students will benefit from a variety of health and safety projects such as:

- Updating fire alarm systems, smoke detectors, and sprinklers
- Improve schools as required to comply with existing building codes, including upgrading schools to ensure access for disabled students, staff, teachers and community members
- Improving security systems such as new door safety locks, lighting, fencing
- Removing potentially hazardous materials where found
- Repairing deteriorating school restrooms
- Upgrade/replace outdated, failing heating and cooling systems, lighting and wiring with up-to-date equipment that will reduce utility costs and save money
- Make safety, security, communications and technology improvements to existing District campuses, buildings and facilities
- Address unforeseen conditions revealed by construction/modernization

Construction of New Facilities to Prevent and Relieve Student Overcrowding

Goal and Purpose: Overcrowded schools make it difficult to attract and hire qualified teachers and staff, leading to student bullying, vandalism and youth violence, and making it difficult to provide adequate space for student learning. To help relieve student overcrowding and provide a safe and enriching learning environment for all students and teachers, the District will continue to evaluate the need for new middle and high school facilities to meet student and community needs. This may include:

- Planning, land acquisition, and design of new school facilities
- Construction of new classroom and instructional support facilities, science labs and career technical education facilities, physical education and athletic facilities, technology infrastructure, supporting site and campus infrastructure and furnishings and equipment
- Provide temporary (interim) classrooms and other school facilities as needed to accommodate students and school functions displaced during construction/renovation
- Necessary site preparation/restoration in connection with new construction, renovation or remodeling, including ingress and egress, removing, replacing or installing irrigation, utility lines, trees and landscaping, and acquiring any necessary easements, licenses, or rights of way to property
- Demolition of outdated buildings to be replaced with new construction

Proceeds from the sale of bonds authorized by this Bond Measure may be used for the reconstruction, rehabilitation or replacement of existing school facilities or the construction of new facilities (including the acquisition of property, as required), as well as the provision of furnishing and equipping of school facilities, as specified in the Bond Measure Projects listed above.

Maximize State and other Outside Matching Fund Opportunities

In addition to the Bond Measure, the District will also aggressively and continuously pursue funds from all available alternative-funding sources to complete the facilities projects listed in the Bond Measure. The District has been highly successful in obtaining and securing these types of funds for school facilities projects from prior bond measures approved by the District's voters.

• Project Costs for Furnishings and Equipment to Support School Facilities •

Project Costs for furnishings and equipment for some or all of the identified District campuses may include, but are not limited to, some or all of the following: security, safety and communication systems and equipment, desks and tables; window and floor coverings (including tiles and carpeting); computers and computer systems, media recording and presentation equipment, including, but not limited to, audio systems, kitchen equipment; improvements and furnishings; science laboratory equipment; and/or other electronic equipment and systems.

• Other Project Costs to Support School Facilities •

Project costs for the above-referenced projects may include site preparation, installation costs, engineering, architect and design costs, project management costs, state or local fees, charges, costs or expenses, legal costs and expenses and costs involving design, planning, environmental review, construction and completion of the aforementioned projects, potential allocations for minor upgrades, renovations and modification costs for newly constructed and/or refurbished School District facilities, costs and expenses associated with the provision of renewable and/or more efficient energy sources for School District needs or facilities and related planning and infrastructure costs. Project costs may also include the payment or prepayment of lease payments for lease of authorized facilities, property or buildings, prepayment of lease obligations for facilities purposes and payment of costs and expenses for interim financing of authorized facilities (including, but not limited to, financing delivery costs) and the costs associated with necessary additional staff required to efficiently and effectively implement the planning, design and construction of the projects. Allowable project costs also include: costs of issuing the bonds or other securities (as authorized under California law), informational distribution costs and election costs authorized under State law. Funding for these projects may come from this Bond Measure or other District resources as the school facilities needs arise and additional funding sources are identified and accessed. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on, or necessary and incidental to, bond projects.

• Citizen Oversight and Local Accountability •

If this bond measure is approved, the Perris Union High School District Board of Trustees will appoint a citizens' oversight committee and conduct annual independent audits to assure that bond funds are spent only on school and classroom improvement projects and for no other purposes.

In preparing the foregoing list, the Board of Trustees of the Perris Union High School District has evaluated safety, class size reduction and information technology needs. Approval of the School District's bond measure does not guarantee that all of the identified projects within this list will be funded beyond local funds generated by the bond measure and does not guarantee that the projects will be completed in any particular order. The School District will also aggressively pursue funds from the State of California to complete facilities projects.

If this Bond measure is approved, the Perris Union High School District Board of Trustees will appoint a citizens' oversight committee and conduct annual independent audits to assure that bond funds are spent only on school and classroom improvements and for no other purposes.

MEASURE "T" - PERRIS UNION HIGH SCHOOL DISTRICT

TAX RATE STATEMENT

**PERRIS UNION HIGH SCHOOL DISTRICT -
General Obligation Bond Election of November 6, 2012**

MEASURE "T"

As shown on the enclosed official ballot, an election is being held in the Perris Union High School District ("District") on November 6, 2012, for the purpose of submitting to the registered voters within the District the question of whether the District shall issue and sell bonds in an amount not to exceed \$153,420,000 for the purpose of providing funds for the specified school facilities and school projects as set forth in the resolution of the District calling such bond election. This measure will authorize a tax sufficient for payment of interest on, and redemption of, the bonds. The bonds shall bear interest at a rate, or rates, to be established at such time as the bonds are sold, in one or more series, at fixed or variable interest rates not to exceed the maximum applicable statutory rate for such bonds. If such bonds are authorized and sold, the principal thereof and the interest thereon are a general obligation of the District, payable from the proceeds of *ad valorem* taxes on taxable real property located within the District.

The following information is submitted in compliance with California Elections Code Sections 9401 through 9404 based on estimates of assessed valuations available at the time of filing of this statement:

- (a) The best estimate from official sources of the tax rate that would be required to be levied to fund the bond issue during the first fiscal year after the first sale of the bonds based on estimated assessed valuations available at the time of filing of this statement or a projection based on experience within the same jurisdiction or other demonstrable factors is \$0.030 per \$100 (\$30.00 per \$100,000) of assessed valuation.
- (b) It is anticipated that the bonds will be sold in more than one series. The best estimate from official sources of the tax rate which would be required to be levied to fund such bond issues during the first fiscal year after the last sale of the bonds based on estimated assessed valuations available at the time of filing of this statement or a projection based on experience within the same jurisdiction or other demonstrable factors is \$0.030 per \$100 (\$30.00 per \$100,000) of assessed valuation.
- (c) The best estimate from official sources of the highest tax rate which would be required to be levied to fund the bond issues during the term of the bond issues, based on estimated assessed valuations available at the time of filing of this statement or a projection based on experience within the same jurisdiction or other demonstrable factors, is \$0.030 per \$100 (\$30.00 per \$100,000) of assessed valuation. It is estimated that the highest tax rate would apply in the 2013-2014 tax year based on assessed valuations available at the time of this filing or a projection based on experience within the same jurisdiction or other demonstrable factors.

Voters should note that these estimated tax rates are based on the *assessed value* of taxable property within the District as shown on the official rolls of Riverside County, *not* on the property's market value. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective rate than described above. Actual future assessed valuation will depend upon the amount and value of taxable property within the District as determined by the Riverside County Assessor in the annual assessment and the equalization process. Property owners should consult their own property tax bills and/or tax advisors to determine their property's assessed value and any applicable tax exemptions.

Attention of all voters is directed to the fact that these estimates are based on assumptions and projections derived from information obtained from official sources. The actual tax rates and the years in which they will apply may vary depending on the timing of any bond sales, the amount of bonds sold, market interest rates at the time of each sale of bonds and actual assessed valuations over the term of repayment of the bonds. The timing of the bond sales and the amount of bonds sold at any given time will be governed by the needs of the District, including the legal limitations on bonds approved by a 55% vote. The actual interest rates at which the bonds will be sold will depend on the bond market at the time of each such sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the District as determined by the Riverside County Assessor in the annual assessment and the equalization process.

Dated: June 20, 2012

Ms. Candace Reines, Assistant Superintendent,
Business Services - Perris Union High School District

IMPARTIAL ANALYSIS OF MEASURE “T”

The Board of Education (“Board”) of the Perris Union High School District (“District”) by adopting Resolution No. 39:11-12 (“Resolution”), elected to call an election pursuant to Section 18 of Article XVI and Section 1 of Article XIII A of the California Constitution and Section 15100 and 15264 *et seq.* of the California Education Code to obtain authorization to issue and sell general obligations bonds (“Bonds”) in the aggregate principal amount of \$153,420,000.

The Bonds would be used by the District to construct a new high school and to expand, rehabilitate and upgrade existing school facilities, including improving classrooms, science labs, vocational education, and instructional technology, removal of hazardous materials, upgrading fire safety and school security and improving access for disabled persons. The Bonds would not be used to increase salaries, benefits, or pensions for administrators, teachers, or any other school employees.

An ad valorem tax would be levied and collected on property within the boundaries of the District to pay the principal and interest on the Bonds.

The Resolution provides that the maximum interest rate on the Bonds will not exceed the maximum interest rate permitted by the applicable laws of the State and the maximum term of the Bonds, or any series thereof, will not exceed 40 years.

For this Measure to be approved fifty-five percent (55%) of qualified voters who vote on the Measure must vote yes.

A “YES” vote on Measure “T” is a vote to allow the District to sell the Bonds and levy the necessary taxes to pay for the Bonds.

A “NO” vote on Measure “T” is a vote against allowing the District to sell the Bonds and levy the necessary taxes to pay for the Bonds.

By: Sunshine S. Sykes,
Deputy County Counsel

ARGUMENT IN FAVOR OF MEASURE “T”

Voting YES on “T” will provide locally controlled funding to update and repair our local secondary schools serving Menifee and the Perris area.

Measure “T” will upgrade high school vocational education programs that give students opportunities to achieve the skills needed to compete for good jobs in today’s competitive economy. Measure “T” also provides essential school repairs and upgrades so all students have equal access to clean, safe and up-to-date classrooms, science labs, instructional technology and career training to prepare them for college and the workforce.

Student test scores at our neighborhood middle and high schools have risen steadily over the past five years. However, student overcrowding, outdated technology, and state budget cuts threaten this progress.

Measure “T” is a local solution: providing locally controlled funds to improve local schools. By law, all Measure “T” funds stay here and not one penny can be taken by Sacramento or used for other purposes.

Measure “T” will:

- Upgrade vocational education classrooms, labs and technology
- Update fire safety and school security systems
- Add classrooms and school facilities to relieve overcrowding, including a new high school in Menifee, which would support eventual unification
- Remove potentially hazardous materials where found
- Update restrooms and other essential school facilities
- Update science and computer labs
- Modernize educational tools to help attract and retain excellent teachers and promote continued increases in academic achievement by our students

Investing now in our local schools will also create new jobs and strengthen local property values. If we wait, these problems will become more costly.

An independent community oversight committee and annual public audits ensure strict oversight and accountability. No funds can be used for administrator salaries or benefits.

Join us and vote YES on Measure “T” to support quality education in local schools.
