

ELECTION PREPARATION—APRIL 13, 2009

Logic & Accuracy Testing

Logic & Accuracy Testing of the electronic Accessible Voting Units began today in the warehouse. Any member of the public may observe the testing M-F during normal business hours. Testing is expected to continue through April 17th. Observers may walk the aisles between the units, but may not touch any equipment. Video taping and photography is permitted. Three observers signed in today to observe the testing.

Paper Ballot Inventory

Paper ballots for Election Day use are inventoried in the warehouse.
